

The Alternatives to Violence Project WA Inc. is a non-religious, not-for-profit organisation which has run workshops in Perth since 1994. This is an international programme based on over 30 years of experience. We conduct workshops for members of all communities to help participants discover new and creative ways of responding to conflict situations and build community. Participants find strengths and skills within themselves that will enable them to deal with future conflict or potentially violent situations in a more positive manner.

The Basic Workshop covers themes such as: **Affirmation, Communication, Co-operation, Community Building, Trust and Conflict Resolution. Discussions and exercises address methods of harm prevention of self and others whether it be physical or emotional.**

All who have completed a Basic course are invited to participate in an Advanced level. At this workshop, the participants choose, by consensus, the topic which they want the second day of the programme to develop. Some common themes explored are: **Fear, anger, Communication Stereotyping, Power and Powerlessness and Forgiveness.**

There is then a third course in which people can **train to become facilitators.**

.....

**BASIC WORKSHOP FOR MEMBERS OF THE GLBTI COMMUNITY**
